**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Tai et al (U.S. Patent 5,667,743 A).

Note that U.S. Patent 5,667,743 A (cited by applicant) is equivalent to EP 0808922 A1 (also cited by applicant).

Tai et al (see the entire document, in particular, col. 3, line 7 to col. 8, line 26; Examples) teach a process of wet spinning a meta-aramid polymer as set forth in the instant claims. Tai et al teach the claimed range of draw ratio (col. 3, lines 59-63; Examples). Tai et al teach that the fiber is drawn while in contact with a solution which, like a conditioning solution, contains water, salt and solvent (col. 6, lines 6-29).
